Sub: Fire & Gas System and ESD supplied by M/s ICS on HRC Heera Offshore platform for ONGC.

M/s ICS, UK & Malaysia have supplied integrated F&G system and Regent Plus+ TMR PLC System for emergency Shut down (ESD) on HRC platform in 1998 which was built by Larsen & Toubro Ltd.

Both the systems were interfaced with Fisher Rosemount "Provox" DCS System. Commissioning of the system were successfully completed by team of M/s ICS, UK & Malaysia. Their representative in India M/s Allport, Delhi provided commissioning assistance for F & G system.

Both the systems are operational & we are pleased with the performance of M/s ICS & M/s Allport.

L&T's experience with ICS as safety system supplier is satisfactory.

For Larsen & Toubro Limited
